

To Whom it may Concern,

I am the technical manager and owner of Business Information Solutions in Robertsdale AL. We have a team of highly trained, experienced, technicians. I have also had a long standing professional relationship with Jason Ellison that spans over 10 years back to when he was working at The Computer Outlet. I have never found a problem that Jason could not investigate, explain, and ultimately solve. Over the years I have brought Jason in when others have failed, or the problems were so complex that thorough documentation was required. Jason has had his work published in leading technical publications. There is no doubt in my mind that any organization would be satisfied with the direction of the IT department with Jason at the helm.

I have always come to expect well researched and well documented solutions from Jason, but I can also speak to his honesty and professionalism. I have never known Jason to cut corners or do anything dishonest in the 10 years we have been associated.

If you are considering Jason for a position, I would be happy to discuss specifics about his past achievements for our company at any time.

Sincerely,

Kevin Welch
