

Letter of Recommendation for Jason Ellison

To Whom It May Concern:

My name is Sam Woodson and I am the IT Superintendent at Riviera Utilities. Jason Ellison has worked for Riviera as a consultant for several years and has been very helpful in the areas of network support and security issues. He has done a great job for us in setting up fire walls, defining exchange parameters, refining network security, and other issues related to our IT environment. He is a knowledgeable person with the 'people skills' necessary to interact effectively with management and users alike. Jason is committed and 'sees things through' and will not stop until the job is done right. He has earned the respect of those associated with him during the implementation of many projects here at Riviera and he can be counted on. His dedication and work ethic are paramount.

I believe Jason would make an excellent network administrator for your city.

If you need to discuss this further I can be reached at 251-943-5001 or you can email me at swoodson@riviera-utilities.com.
